support@1callpcsolutions.com

Dear One Call PC Solutions Customers;

We have just subscribed you all to our newsletter. We plan on sending out newsletters periodically to let you all know about specials we are having and to let you know if there are any virus alerts that you need to be aware of. If any of you would like to be removed from the list just send us an email and we will be happy to remove your name. We are not going to send out an overwhelming amount of mail, we just want to keep all of you informed.

Currently you should be on the look out for the W32.Bugbear.B@mm virus, ranked as a category 4 threat according to Symantec Corporation. You can find more information at www.symantec.com. Free removal tools are available from both Norton Anti-Virus (www.symantec.com) and McAfee (www.mcafee.com).

One Call PC Solutions is now offering website design, ranging from simple inexpensive designs to far more extravagant sites. See our website at www.1callpcsolutions.com for our gallery of simple websites with some of our more complex sites coming soon.

Thanks,

Clint Crocker, Owner

Heather Crocker, Business Manager
